

Market area border Russian Federation – THE (Greifswald)

General information

- This auction is part of the incremental capacity cycle 2019-2021 as published for this market border.
- After all auctions have been concluded, an economic test will be conducted and the shipper will be informed about the result in due time.
- In any case a mandatory minimum premium derived from Art. 22 to 31 of Commission Regulation (EU) 2017/459 must be charged additionally to the regulated capacity tariff to the party booking the offered incremental capacity in this auction. The value of the mandatory minimum premium depends on the outcome of the economic test according to the booking scenario of the related incremental capacity bookings as published for this market border.
- The capacity product “Upgrade DZK to FZK” is offered in line with the project approved by the Federal Network Agency BNetzA for incremental capacity in the form of a capacity upgrade at the IP Greifswald-NEL at the border between the Russian Federation and THE in one offer level as published [here](#).

Pre-requisite for this auction

- Please note that the pre-requisite of a successful allocation to the party booking the offered incremental capacity is an **existing contract** of the respective DZK product, which is intended to be upgraded. Auction bids of the network users **not having** the respective DZK bookings at this IP, will therefore **not be considered** for the purposes of allocation of this product.

General Terms and Condition / Supplementary Terms and Conditions

- By participating in this incremental auction, the supplementary terms and conditions for incremental capacity of the marketing TSO are accepted. The network access conditions of the marketing TSO are also accepted. These documents can be found in the download area of the marketing TSO.
